

Tobacco consumption is killing

P.V.Anandpadmanabhan
Healis Sekhsaria Institute for Public Health in collaboration with the University of Waterloo, Canada had unveiled their latest report and the tobacco control policy survey conducted in Maharashtra, Bihar, West Bengal and Madhya Pradesh on alarming facts about Tobacco use and the implementation of Tobacco control policies in India.

Healis Sekhsaria Institute of Public Health has committed itself to advancing public health through innovative science and evidence-based policy. It conducts quality research in the public health domain and carries forward its outcome for the benefit of society. Most tobacco users in India have no plans to quit tobacco use. This suggests that there is a need for more effective and stronger tobacco control policies and anti-tobacco campaigns. Additionally, resources such as the quitline number should be made more widely available and accessible to tobacco users.

Cigarettes, bidis, and smokeless tobacco products continue to be highly affordable for tobacco users in India. In order to curb the use of tobacco among current users and to prevent new initiation among non-users, India needs to implement taxation policies that will reduce the affordability of all tobacco products.

Dr. Mangesh Pednekar, Director, Healis Sekhsaria Institute for Public Health said that "In India, smokeless tobacco use and bidi smoking continues

to be the dominant forms of tobacco use over cigarette smoking. Tobacco use in any form causes not only loss of lives but also huge economic and social costs. Even though the harmful effects of tobacco use are well known, tobacco product promotion and limited availability of cessation support remain a big concern. It is, therefore, necessary that the country should come up with effective enforcement of tobacco control

policies and anti-tobacco campaigns to dissuade people, especially the youngsters, from the use of tobacco. There is an urgent need to increase state-specific tobacco cessation infrastructure that will support the increasing calls from users for cessation help on the existing National 'quitline number'."
